notes:

score:

out of 77

This test correlates to STAGE ONE units 1 to 5 of Phonics International. Ask the student to "say the sounds" (reading his/her own copy). Ensure he/she knows the difference between letter 'names' and 'sounds'. Model the first letter sound /m/ said 'purely' – not with an added schwa /m+uh/. The numbers indicate more than one sound so ask the student to say whatever he/she knows. Annotate test paper freely.
